## Provision a New Edge

[Add to Library](#) | [RSS](#) | [Download PDF](#) | [Feedback](#)

Updated on 07/28/2019

Selected product version: VMware SD-WAN 3.3

This section describes the first steps to provision a new Edge configuration using a Profile.

Configure Profiles

After you click the **Create** button, the **Edge Overview** screen appears showing the Edge activation key at the top of the screen. To see an overview of the Edge you just created, or to make any changes to it, see the [Edge Overview Tab](#) section.

After you have Provisioned the Edge, you can select the Edge from the **VeloCloud Edges** window, click the **Actions** button to open the drop-down menu, and perform relevant options on the selected Edge. See the section below for a description of all the options in the **Actions** drop-down menu.
